

## ABOUT ALLONIA

Created in 2021, Allonia (ex. Aleia) offers companies and public organisations THE 100% sovereign, secure and collaborative AI SaaS Platform.

Our all-in-one 360° platform enables technical and business teams to collaborate very easily on all AI projects (classical AI and/or generative AI).

Our platform provides the most innovative tools and integrates all kinds of data, a wide selection of models and libraries, all on a high-performance, sovereign infrastructure.

- Import your data and code directly into the integrated, collaborative notebook.
- Manage your teams and use the model(s) of your choice.
- Monitor and fine-tune models for optimum performance.
- Speed up production by interfacing with your business applications.

More than twenty customers in various sectors (energy, logistics, mobility, cyber, etc.) have placed their trust in us !

Allonia now has 40 employees and is rapidly expanding !
